

TABLE OF CONTENTS

	<u>Page No.</u>
ACRONYMS AND ABBREVIATIONS	AC-1
UNITS OF MEASUREMENT	U-1
1. PROJECT OVERVIEW	1-1
1.1 Introduction.....	1-1
1.2 Purpose and Need for the Undertaking.....	1-1
1.3 Project Proponent.....	1-2
1.4 Facility Description.....	1-3
1.5 Environmental Assessment Requirements.....	1-6
1.6 NGS Permits and Approvals.....	1-9
1.7 Public and Agency Review of Draft Documents.....	1-10
1.8 Project Time Frame.....	1-10
1.9 Report Organization.....	1-11
2. DESCRIPTION OF THE EXISTING ENVIRONMENT	2-1
2.1 Introduction.....	2-1
2.2 Atmospheric Environment (Air Quality).....	2-3
2.2.1 Climate and Meteorological Data.....	2-3
2.2.1.1 Near Surface Temperature.....	2-3
2.2.1.2 Precipitation.....	2-6
2.2.1.3 Stability.....	2-6
2.2.1.4 Wind Direction and Speed.....	2-7
2.2.1.5 Fogging and Cloud Cover.....	2-8
2.2.1.6 Mixing Height.....	2-8
2.2.2 Air Quality.....	2-8
2.2.2.1 Site specific CAC Measurements.....	2-9
2.2.2.2 Historical Ambient Monitoring Data.....	2-14
2.3 Noise.....	2-16
2.3.1 Location of Receptors.....	2-16
2.3.2 Establishing Background Sound Levels.....	2-19
2.3.3 Minimum Hourly Noise Level.....	2-20
2.3.4 Statistical Analysis of Hourly Noise Data.....	2-23
2.4 Lighting.....	2-25
2.5 NGS Site Geology and Soils.....	2-27
2.5.1 Physiography.....	2-27
2.5.2 NGS Site Geology.....	2-27
2.5.3 Bedrock.....	2-27
2.6 Surface and Groundwater.....	2-28
2.6.1 Surface Drainage.....	2-28
2.6.2 Groundwater.....	2-30
2.7 Aquatic Environment.....	2-30
2.7.1 Proximate Shoreline Configuration and Bathymetry.....	2-32

2.7.1.1	Currents.....	2-32
2.7.2	Aquatic Environment Resources.....	2-38
2.7.2.1	Thermal Regime.....	2-38
2.7.2.2	Substrate.....	2-41
2.7.2.3	Water Quality.....	2-44
2.7.2.4	Sediment Quality.....	2-47
2.7.2.5	Aquatic Macrophytes.....	2-48
2.7.2.6	Benthic Macroinvertebrates.....	2-48
2.7.2.7	Fisheries Resources.....	2-50
2.7.2.8	Aquatic Avifauna.....	2-56
2.7.2.9	Significant Species.....	2-60
2.8	Terrestrial Environment.....	2-60
2.8.1	Vegetation Communities and Species.....	2-60
2.8.1.1	Surrounding Area.....	2-60
2.8.1.2	NGS Site.....	2-62
2.8.2	Flora.....	2-70
2.8.2.1	Surrounding Area.....	2-70
2.8.2.2	NGS Site.....	2-70
2.8.3	Birds.....	2-70
2.8.3.1	Surrounding Area.....	2-70
2.8.3.2	NGS Site.....	2-72
2.8.4	Amphibians and Reptiles.....	2-74
2.8.4.1	Surrounding Area.....	2-74
2.8.4.2	NGS Site.....	2-75
2.8.5	Mammals.....	2-76
2.8.5.1	Surrounding Area.....	2-76
2.8.5.2	NGS Site.....	2-76
2.8.6	Species at Risk.....	2-77
2.8.6.1	Surrounding Area.....	2-77
2.8.6.2	NGS Site.....	2-78
2.8.7	Landscape Connectivity.....	2-79
2.8.7.1	Surrounding Area.....	2-79
2.8.7.2	NGS Site.....	2-79
2.9	Socio-Economics.....	2-81
2.9.1	County of Lennox and Addington.....	2-81
2.9.1.1	Health Services.....	2-81
2.9.1.2	Social Services.....	2-82
2.9.1.3	Tourism.....	2-82
2.9.1.4	Water Uses.....	2-83
2.9.2	Town of Greater Napanee.....	2-84
2.9.2.1	Demographic Profile.....	2-84
2.9.2.2	Employment and Income.....	2-85
2.9.2.3	Education.....	2-87
2.9.2.4	Recreational Opportunities.....	2-89
2.9.2.5	Sandhurst.....	2-89
2.9.3	Loyalist Township.....	2-89

2.9.3.1	Demographic Profile.....	2-89
2.9.3.2	Employment and Income	2-90
2.9.3.3	Bath.....	2-90
2.9.3.4	Amherst Island (Emerald).....	2-91
2.10	Traffic	2-91
2.10.1	Existing Road Network.....	2-92
2.10.2	Existing Traffic Volumes and Intersection Operations	2-96
2.10.3	Future Baseline Traffic Volumes.....	2-98
2.10.3.1	Summer Baseline Intersection Operations (2016)	2-98
2.10.3.2	Summer Intersection Operations (2016) – Peak Construction Traffic.....	2-100
2.10.3.3	Summer Baseline Intersection Operations (2025)	2-102
2.10.3.4	Summer Intersection Operations (2025) – NGS Maintenance Traffic.....	2-104
2.11	Archaeology and Built Heritage Resources.....	2-106
2.11.1	Built Heritage Resources	2-106
2.11.2	Stage 1 Archaeological Assessment	2-106
2.11.3	Stage 2 Archaeological Assessment	2-109
2.12	Aboriginal Interests.....	2-111
3.	PROJECT DESCRIPTION.....	3-1
3.1	Facility Description.....	3-1
3.1.1	NGS Operation.....	3-3
3.1.2	Natural Gas	3-4
3.1.3	Power Systems	3-5
3.1.4	Site Layout and Process.....	3-6
3.1.5	Water and Wastewater System	3-10
3.1.5.1	Water Supply and Water Treatment	3-10
3.1.5.2	Wastewater Collection, Treatment, and Discharge.....	3-22
3.2	Site Preparation.....	3-28
3.2.1	Demolition of Existing Buildings	3-28
3.2.2	Clearing of Vegetation.....	3-28
3.2.3	Grading	3-28
3.2.4	Erosion and Sediment Control Plan.....	3-30
3.2.5	Stormwater Management Plan.....	3-32
3.2.5.1	Pre-Development Conditions.....	3-32
3.2.5.2	Stormwater Management Design Criteria	3-35
3.3	Proposed SWM Plan.....	3-36
3.3.1	Land-Use and Drainage Patterns	3-36
3.3.2	SWM Facility Features	3-38
3.3.2.1	Water Quality Control Measures	3-38
3.3.2.2	Water Quantity Control Measures	3-39
3.4	Construction Activities	3-40
3.4.1	Construction of NGS.....	3-40
3.4.2	Site Utilization during Construction	3-41
3.4.3	Water Availability.....	3-42

3.4.4	Site Restoration and Landscaping Activities	3-42
3.5	Safety	3-42
3.5.1	Emergency Response	3-42
3.6	Decommissioning	3-43
3.7	Permits and Approvals.....	3-43
3.7.1	Permit To Take Water.....	3-43
3.7.2	Environmental Compliance Approval (ECA) (Air and Noise)	3-44
3.7.2.1	Point Of Impingement Standards.....	3-44
3.7.2.2	End-of-Stack Standards	3-44
3.7.2.3	Ambient Air Quality Criteria	3-45
3.7.2.4	Noise Approvals.....	3-46
3.7.3	Environmental Compliance Approval (ECA)(Industrial Sewage)	3-46
3.7.4	Municipal Permits.....	3-47
3.7.4.1	Official Plan, Amendments and Minor Variances	3-47
3.7.4.2	Site Plan Approval	3-48
3.7.4.3	Building Permits	3-48
3.7.5	Other Authorizations.....	3-48
3.7.5.1	Ministry of Transportation.....	3-48
3.7.5.2	Ministry of Natural Resources	3-49
3.7.5.3	Cataraqui Region Conservation Authority.....	3-49
3.7.5.4	Aeronautical Obstruction Clearance (Transport Canada)....	3-49
3.7.5.5	Transboundary Air	3-49
4.	ASSESSMENT AND MANAGEMENT OF ENVIRONMENTAL EFFECTS.....	4-1
4.1	Approach to the Assessment of Environmental Effects	4-1
4.1.1	Screening Criteria Check List.....	4-2
4.2	Air Quality	4-4
4.2.1	Effects During Construction	4-4
4.2.2	Effects During Operation.....	4-5
4.2.2.1	Sources of Atmospheric Emissions	4-5
4.2.2.2	Operating Scenarios.....	4-8
4.2.2.3	Emission Rates for Criteria Air Contaminants (CACs).....	4-9
4.2.2.4	Emission Rates for VOCs, PAHs and Metals.....	4-13
4.2.2.5	Modelling Methodology	4-15
4.2.2.6	Modelling Results	4-18
4.3	Noise and Vibration	4-29
4.3.1	Effects During Construction	4-29
4.3.1.1	Sources of Construction Noise and Vibration	4-29
4.3.1.2	Regulatory Requirements - Construction Noise and Vibration	4-29
4.3.1.3	Assessment Scenarios	4-30
4.3.1.4	Model Configuration.....	4-31
4.3.1.5	Modelling Results.....	4-32
4.3.2	Effects During Operation.....	4-35
4.3.2.1	Sources of Operational Noise	4-35
4.3.2.2	Regulatory Requirements – Operations	4-36

4.3.2.3	Low Frequency Noise	4-38
4.3.2.4	Assessment Scenarios	4-39
4.3.2.5	Model Configuration	4-41
4.3.2.6	Modelling Results	4-42
4.4	Lighting	4-47
4.4.1	Construction	4-47
4.4.2	Operational	4-48
4.5	Bedrock Geology, Physiography and Soils	4-49
4.5.1	Effects During Construction	4-49
4.5.2	Effects During Operation	4-49
4.6	Surface and Ground Water Quality and Hydrology	4-50
4.6.1	Effects During Construction	4-50
4.6.1.1	Surface Water Hydrology and Quality	4-50
4.6.1.2	Groundwater Hydrology and Quality	4-53
4.6.2	Effects During Operation	4-53
4.6.2.1	Stormwater Management	4-53
4.6.2.2	Wastewater Management and Discharge	4-55
4.6.2.3	On-site Incidents and Spills	4-61
4.6.2.4	Thermal Loadings	4-62
4.6.2.5	Groundwater Hydrology and Quality	4-65
4.7	Aquatic Environment	4-66
4.7.1	Effects During Construction	4-66
4.7.2	Effects During Operation	4-67
4.7.2.1	Effects from Impingement and Entrainment (I & E)	4-67
4.7.2.2	Effects from Thermal Discharge	4-70
4.8	Terrestrial Environment	4-72
4.8.1	Effects During Construction	4-72
4.8.1.1	Removal of Vegetation and Wildlife Habitat	4-72
4.8.1.2	Disruption of Connectivity	4-77
4.8.1.3	Blasting and Vehicular Noise	4-78
4.8.1.4	Deposition of Dust	4-80
4.8.2	Effects During Operation	4-81
4.8.2.1	Bird Strikes	4-81
4.8.2.2	Disturbance to Wildlife due to Noise	4-82
4.9	Socio Economics	4-84
4.9.1	Effects During Construction	4-84
4.9.1.1	Existing Land Uses	4-84
4.9.1.2	Community Character	4-84
4.9.1.3	Local Businesses, Institutions and Public Facilities	4-85
4.9.1.4	Recreation, Cottaging or Tourism	4-90
4.9.1.5	Community Services and Infrastructure	4-90
4.9.2	Effects During Operation	4-92
4.9.2.1	Existing Land Uses	4-92
4.9.2.2	Community Character	4-92
4.9.2.3	Aesthetics	4-93
4.9.2.4	Local Businesses, Institutions and Public Facilities	4-94

4.9.2.5	Recreation, Cottaging or Tourism.....	4-94
4.9.2.6	Community Services and Infrastructure	4-94
4.10	Traffic	4-96
4.10.1	Effects During Construction	4-96
4.10.1.1	Increase in Traffic During Construction	4-96
4.10.1.2	NGS Site Access	4-100
4.10.2	Effects During Operation	4-102
4.10.2.1	Increased Traffic During Operation.....	4-102
4.11	Archaeology and Built Heritage	4-105
4.11.1	Effects During Construction	4-105
4.11.2	Effects During Operation.....	4-105
4.12	Aboriginal Interests.....	4-106
4.12.1	Effects on Aboriginal Interests	4-106
4.13	Human and Ecological Health	4-107
4.13.1	Difference Between a Risk Assessment and a Health Study	4-107
4.13.2	Risk Assessment Process	4-107
4.13.3	How the Analysis was Performed.....	4-108
4.13.4	Predicted Human Health Risks	4-109
4.13.5	Ecological Assessment.....	4-114
4.13.6	Chemical Interactions	4-114
4.13.7	Biological Risks.....	4-115
4.13.8	Certainty of Results.....	4-115
5.	COMMITMENT TO MITIGATION AND IMPACT MANAGEMENT	5-1
5.1	Summary of Impacts, Mitigation and Net Effects	5-1
5.2	Monitoring	5-5
6.	PUBLIC AND AGENCY CONSULTATION	6-1
6.1	Consultation Program	6-1
6.2	Consultation Goals, Objectives and Principles	6-2
6.3	Broad-Based Communication Tools and Activities	6-3
6.3.1	Preliminary Consultation	6-4
6.3.2	Project Commencement.....	6-5
6.3.3	Identification of Stakeholders.....	6-5
6.3.4	Project Website.....	6-6
6.3.5	Media Communication.....	6-6
6.3.6	Project Mailouts.....	6-7
6.3.7	Local Community Liaison Representative and Outreach Office.....	6-8
6.3.8	Open Houses	6-9
6.3.8.1	Open House 1.....	6-9
6.3.8.2	Open House 2.....	6-10
6.3.9	Public Tour of Halton Hills Generating Station	6-13
6.3.10	Jobs Information Session	6-13
6.4	Focussed Activities with Specific Groups	6-14
6.4.1	Site Neighbours.....	6-14
6.4.2	Municipal and County Elected Officials and Staff.....	6-15

6.4.3	Trades, Businesses, Vendors, Unions, and Prospective Employees.....	6-17
6.4.4	Local Environmental and Community Interest Groups.....	6-18
6.4.5	Regulatory Agencies.....	6-19
6.4.6	Aboriginal Communities.....	6-20
6.4.6.1	Open House for Alderville First Nation.....	6-22
6.4.6.2	Open House for Mohawks of the Bay of Quinte	6-23
6.5	Architectural and Landscaping Advisory Committee (ALAC).....	6-24
6.6	Summary of Comments, Questions and Responses.....	6-25
6.7	Publication Of The Draft Environmental Review Report.....	6-102
6.8	Publication Of The Final Environmental Review Report.....	6-104
6.9	Notice of Completion.....	6-105
6.10	Opportunities for Further Engagement	6-106
7.	ENVIRONMENTAL ADVANTAGES AND DISADVANTAGES	7-1
8.	REFERENCES	8-1

APPENDIX A – DRAFT ENVIRONMENTAL REVIEW REPORT COMMENTS AND RESPONSES

LIST OF TABLES

	<u>Page No.</u>
Table 2.1 Kingston Airport Climate Normals (1981-2010)	2-5
Table 2.2 Stability Class Distribution NGS (CALMET) (2008-2012).....	2-6
Table 2.3 Climate Normal Reduced Visibility and Cloud Cover at Kingston Airport (1981-2010)	2-8
Table 2.4 Summary of the 1-Hour NGS Air Monitoring (Feb 13 th – Oct 31 st)	2-11
Table 2.5 Summary of Monitoring Data at the NGS and MOE Belleville and Kingston (Feb 13 th – Oct 31 st)	2-11
Table 2.6 Summary of Representative CAC Baseline Concentrations Near the NGS.....	2-12
Table 2.7 Summary of Representative PAH and VOC Baseline Concentrations at Point Petre NAPS Station (64601)	2-16
Table 2.8 Summary of Receptor Locations	2-17
Table 2.9 Summary of Acceptable Meteorological Parameters	2-19
Table 2.10 Minimum Hourly Background Sound Level (L _{eq})	2-20
Table 2.11 Summary of Monitoring Data (Period L _{eq} and L ₉₀ , dBA)	2-23
Table 2.12 Surficial Sediment Particle Size and Classification Type	2-41
Table 2.13 Fish Species Recorded in the Local Area	2-51
Table 2.14 Aquatic Avifauna Species Recorded in the Local Area	2-57
Table 2.15 Vegetation Communities on the NGS Site	2-64
Table 2.16 Modifications to Classification of Cultural Meadow in Lee <i>et al.</i> (1998).....	2-66
Table 2.17 Breeding Birds Recorded within the NGS Site	2-73
Table 2.18 Mammals Observed within the NGS Site.....	2-77
Table 2.19 Total Labour Force by Occupation (2011)	2-86
Table 2.20 Top Public Employers	2-86
Table 2.21 Top Private Sector Employers	2-87
Table 2.22 Levels of Education Obtained (2011).....	2-88
Table 3.1 Chemical Storage, Use, and Fate.....	3-17
Table 3.2 NGS Effluent Monitoring.....	3-26
Table 3.3 Effluent Collection and Treatment	3-27
Table 4.1 Screening Criteria	4-2
Table 4.2 Auxiliary Boiler Compliance with MOE Guideline A-9 for NO _x	4-6
Table 4.3 Dew Point Heater Compliance with MOE Guideline A-9 for NO _x	4-6
Table 4.4 Emission Rates Used to Develop Scenarios	4-10
Table 4.5 Emission Rates for VOCs, PAHs and Metals.....	4-14
Table 4.6 Summary of Modelling Results – Predicted Incremental POI Concentration for CACs and NH ₃ for All Scenarios.....	4-19
Table 4.7 Summary of Modelling Results - Maximum Predicted Incremental POI Concentration for CACs and NH ₃	4-19
Table 4.8 Summary of Modelling Results – Incremental Concentrations for CACs and NH ₃ at Nearby Residential Receptors.....	4-20

LIST OF TABLES (Cont'd)

	<u>Page No.</u>
Table 4.9 Incremental (Maximum POI) and Cumulative Concentrations for CACs and NH ₃	4-23
Table 4.10 Cumulative Concentrations for VOCs and PAHs	4-25
Table 4.11 Cumulative Concentrations for VOCs and PAHs	4-26
Table 4.12 Sound Emission Standards Construction Equipment	4-30
Table 4.13 Blasting Noise During Construction.....	4-33
Table 4.14 Blasting Vibration During Construction.....	4-33
Table 4.15 Class 3 Minimum 1-Hour L _{eq} by Time of Day.....	4-37
Table 4.16 Noise Source Group Summary	4-40
Table 4.17 Predicted Sound Levels at Points of Reception – Normal and Start-up Operations.....	4-43
Table 4.18 Predicted Sound Levels at Points of Reception – Emergency Operations	4-43
Table 4.19 Contaminant Concentrations & Loadings from the NGS (Cooling Tower Blowdown).....	4-57
Table 4.20 Contaminant Loadings from the NGS (Tempered Cooling Tower Blowdown)	4-58
Table 4.21 Flow Rate of Operating Scenarios.....	4-58
Table 4.22 Concentrations of Contaminants (mg/L)	4-59
Table 4.23 Summary of Discharge Scenarios.....	4-64
Table 4.24 Summary of Distances of ΔT Isotherms from Discharge Channel Outlet for Three Seasonal Periods	4-64
Table 4.25 Vegetation Communities within the NGS Site to be Removed.....	4-72
Table 4.26 Estimated Changes to Breeding Birds	4-75
Table 4.27 Estimated Noise Levels at Terrestrial Receptors.....	4-83
Table 4.28 Estimated Construction Employment: Local, Regional and Outside Hires	4-87
Table 4.29 NGS Operation Worker Trip Generation	4-102
Table 5.1 Summary of Potential Effects, Mitigation and Net Effects	5-1
Table 5.2 NGS Environmental Monitoring Summary.....	5-6
Table 6.1 Summary of Stakeholder Comments and Questions	6-27
Table 7.1 Advantages and Disadvantages of the NGS	7-1
